MORE-Workshop, 24.02.2022

THE ISSUE WITH GOVERNANCE

How to bring trans-european and urban together...

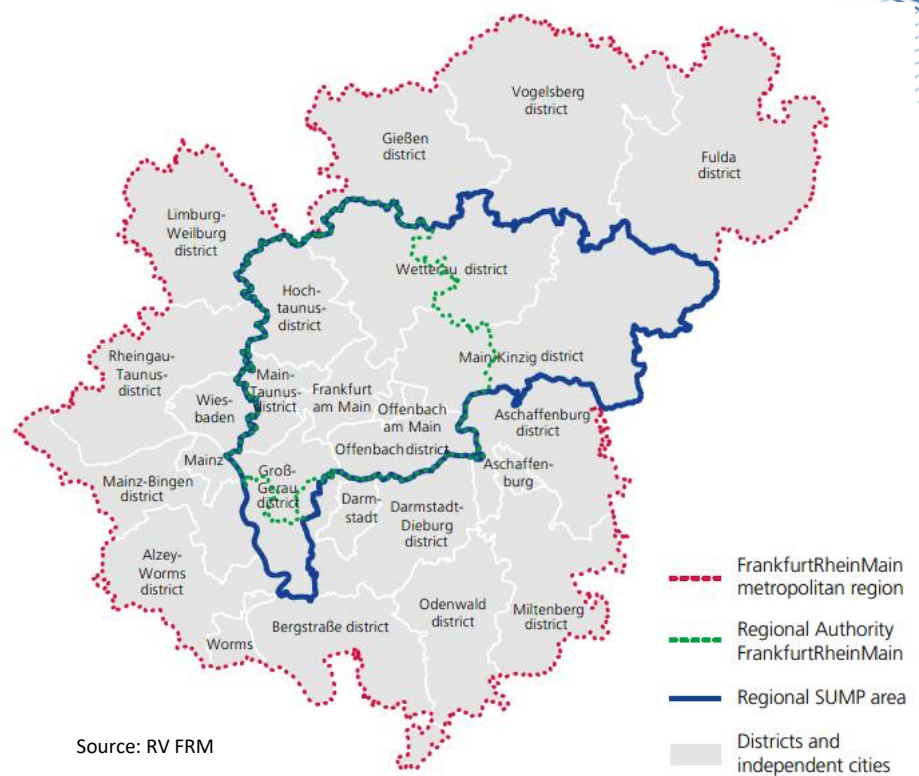

Sources: TEN-Tec Viewer, EU Commission; RV FRM

SOLUTION: COORDINATION

Our multimodal regional SUMP

FrankfurtRheinMain as polycentric
Region: **focus on functional transport
area**

- ★ Avoid unnecessary traffic
- ★ Plan necessary traffic
- ★ Secure mobility for all
- ★ Aim: **65 % of sustainable modes 2030**

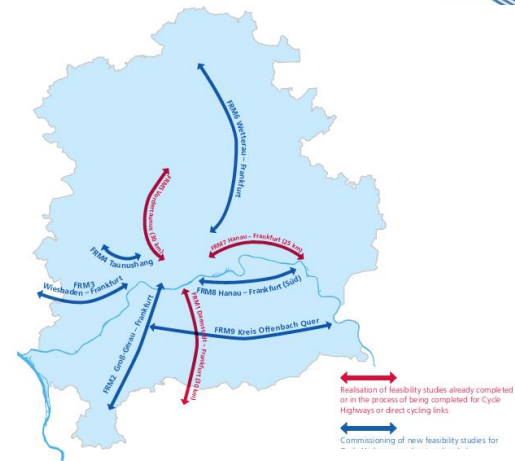

Source: RV FRM

SUMP CORE MEASURES

„FrankfurtRheinMain on the Move“

- ★ Linking land-use and mobility planning
- ★ Planning and constructing of Cycle Highways
- ★ Pedestrian Forum, 5-minute walk analysis
- ★ “Renaissance of rail”: Rail-Coach for reactivation of rail connections
- ★ New rail ring around Frankfurt
- ★ Regional network of multimodal mobility hubs
- ★ Regional logistics concept

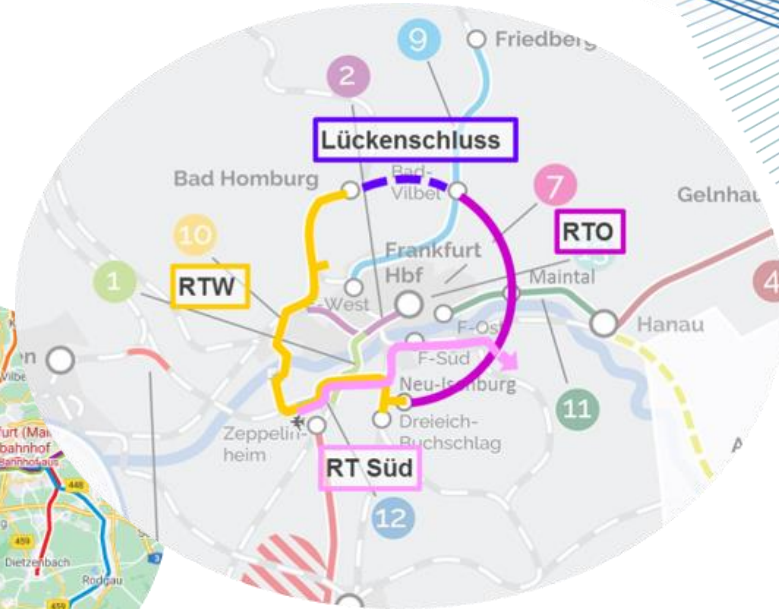

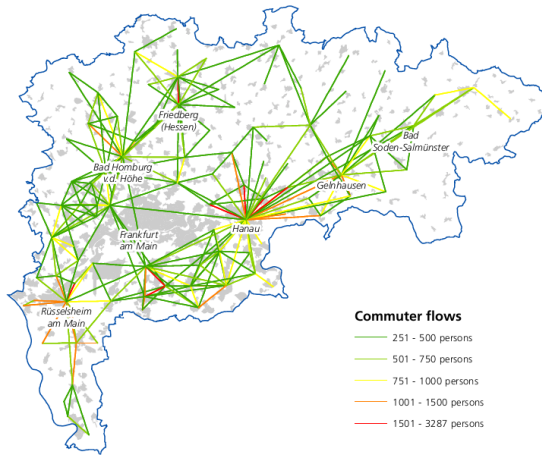

Source: RV FRM

SOLUTION: COOPERATION

FrankfurtRheinMain PLUS „project bundle“

Coordinated infrastructure update
for Frankfurt rail node

Sources: RV FRM; Google Maps; RV FRM based on FrankfurtRheinMain plus

MESSAGES FOR TEN-T REVISION

Urban Nodes as the “hearts” of the Green Deal era mobility systems?

- ★ EC proposal stresses: urban nodes of same **systemic relevance for the overall TEN-T** as missing links or cross-border projects (Art. 4 + Chapter 7)
- ★ **New SUMP-approach based on functional area** as clever „glue“ between TEN-T and urban mobility
- ★ But: New practical questions for polycentric regions arising, which „formal“ role will regional governance institutions play?
- ★ Art. 40 + 41: **Balance between obligations** (so far very clear) **and benefits** (so far not too clear)?

THANK YOU VERY MUCH
